Extra Graduation Session – July 2021

Dear Student,

at its meeting of 17 June 2021, the Teaching Committee of the School of Science and Engineering established that the extra graduation session of July 2021 will be held on site.

Specifically, graduation exams and ceremonies will be held at Cà Vignal campus (Classroom A – *Classe A*) and at Villa Lebrecht - San Pietro in Cariano campus (Berni lecture hall – *Aula Berni*).

Each graduating student may be accompanied by a limited number of people among relatives and friends (**see table below for the maximum number of guests allowed**). Graduating students are strongly recommended that they should arrive no more than 15 minutes before the scheduled time of their final exam/ceremony.

At the entrance, once access has been authorised, each person (including the graduating student and their relatives/friends) must:
- sanitise their hands, using the appropriate dispensers available on site;
- have their body temperature taken by the reception staff;
- provide the reception staff with a self-declaration stating that they comply with the relevant safety requirements when entering the University's premises.

While on University premises, a distance of at least one metre between people must always be respected - not only in the classroom, but also in internal and external spaces and premises - also following the instructions given by the reception staff on site. In any case, any gatherings inside or outside the University premises must be avoided.

Please note that **the option of taking the graduation exam and ceremony remotely at a distance may be granted in specific circumstances.** Students wishing to do so should contact the relevant Chair of the Graduation Committee **by 5 July 2021**, and provide a valid Covid-19 related reasons for requesting the online option, by writing to both of the following email addresses:
carriere.scienze@ateneo.univr.it
didattica.scienzeingegneria@ateneo.univr.it

For anything not covered above, please see the Updates from the University's Covid-19 Task Force at:
https://www.univr.it/it/info-covid

Verona, on 23 June 2021

The Chair

Prof. Pasquina Marzola
