

II Blended Intensive Program

2025

**“Biotechnology from the scratch:
basic methods and technological
implementation”**

What is this program about?

Short, intensive programmes that use innovative methods of learning and teaching, including the use of online cooperation.

What do I gain?

- Participation in a BIPs Erasmus Action project
- Engaging International research groups from Austria and Spain
- Extending your international network contacts
- Participating in an **International Workshop in Vienna**
- Engaging different activities and visiting Biotech companies
- Academic recognition of 3 ECTS

What should I do?

- To apply for the next call of BIPs program-Erasmus call
- To select a topic to be enrolled during all the academic year
- To work with your mentor and colleagues on the topic (on line= 1 meeting per month)
- To prepare a short presentation with your mentor and colleagues
- To expose your main results on site (Vienna, June, 2025)

Different activities will be
organized in Vienna from June 23th to 27th 2025

Organization

University of Verona
